COTTON-FUTURES AND SPOTS. Special to the Gazette.

NEW OBLEANS, LA., Dec. 30 .- Atwood Violett & Co. say: Futures-There was considerable buying at the opening to-day, but prices then proved to be the highest of the day, and at which the market closed. That American markets did not advance as much as Liverpool, where the improvement was 2 to 2 3-64, rather indicates that the short interest is not large, but for the large premiums here and New York, especially, there would be more chance of an advance. But to buy here on a basis of 22 points premium over middling does not look favorable. Jauuary port receipts are estimated at 775,-000, or 100,000 more than last January. Port receipts to-day 49,000, against

600,000 last year. Free on board-Offerings large. Merings show no improvement in the st few days. The bulk of business towas in tinges and higher colored Sales, 2250.

ots-Offering large, and same style usual. The bulk of business is off in rs and stains. Sales, 7500 bales.

COVERNMENTS, STOCKS AND BONDS. NEW YORK, Dec. 30 .- The stock market to-day experienced complete change in temper, and under persistent bear hammering finally closed almost invariably lower than last evening, notwithanything, improved, and the money market worked rather easier than yesterday. Lackawanna is down 137, Louisville and Nashville 15g., Chicago gas and Missouri Pacific each 13g., Union Pacific 11g., and Rock Island, Northern Pacific preferred, 1 per cent, and others smaller amounts.

Railroad bonds fairly active. Government bonds dull and steady. State bonds have been entirely neglected.

A BOLD ROSBERY.

A Youngster at Timpson Robs a Farmer in the Presence of pactators. Exectal to the Gazette.

TIMPSON, Tex., Dec. 30 .- A robbery was committed in Timpson last night in which Dan Stephenson, a farmer from off Bear bayou, was robbed of \$58 in silver by Clarence Flanagan, son of Gen. Webster Flaungan of Henderson and state candidate for governor. Young Finnagan is visiting his brother, Webster Flanagan, Jr., postmaster of Timpson. His brother took the money from him and returned it to the owner. Clarence is a lad of about eighteen years of are. It was a bold robbery, as he caught Stephenson by the collar in the presence of two or three others and by presenting a danger at his breast compelled him to give up the money. Flanagan was arrested and released on \$500 bond.

A RUUF FALLS.

Several Workmen Are lejur d by the Falling

of a tr wery Roof In New York City. New York, Dec 30 .- The big brewery of Herman Koehler, occupying a whole block on First avenue between Twentyninth and Thirtieth streets, was the scene of an accident this afternoon that brought out an ambulance call. The bullding was in course of construction and was crowded with workmen, when auddenly and without any warning the roof fell in. The greatest excitement prevailed in the neighborhood, and the estimates of the number injured vary widely. Seven have already been taken out of the ruins and sent to the hospital and the work still continues. It is not

known that any one was killed. Later-All the workmen who were in the building when the accident occurred are accounted for. Only seven were at all seriously injured. James Durner had his skull fractured and will probably

die. Others will recover. It was announced from Bellevue hospital that James Degan and Louis Weber had died from the effects of their injuries.

Stuck on the Penitentiary.

Special to the Gazette. Paris, Tex., Dec. 30 .- On the 10th of November, 1888, Dolph Parker was convicted here of bringing stolen property into this county, and received a sentence of three years in the Rusk peni-

tentiary, which place he entered November 29 and was discharged November 28, 1890. He was again arrested here to-day upon warrants for three charges of rob bery committed in Cherokee county since He is

Rio Grande Western Freferred a Stendy Dividend Payer, at the Top Notch.

Louisville and Nashville a Weak Feature Another Change Announced in the Western Presidents' Meeting.

Special to the Gazette.

NEW YORK, Dec. 30 .- Rlo Grande Western preferred touched the top notch yesterday since the panic, namely 531/2. This stock has been steadily improving on buying by people identified with the property. One of these gentlemen said last night: "This property will be found to be a steady dividend payer, and will take rank, at price at least and its dividends, with Rock Island and Chicago, Burlington and Quincy. I predict that it will range in the eighties next year, and will be on a 5 per cent basis at that time. The effect of concentrated business on it of the roads east of it will not be felt much before spring. By that time its earnings will jump. The third week in December alone shows an increase of about 120 per cent."

The weak feature of the day was Louisville and Nashville, which declined on rumers that its dividend will be reduced. The last dividend paid in August was 3 per cent, of which 19-10 was in stock. This was the first dividend, any part of which was cash, since 1882.

Rumors of dissensions in the Western presidents' advisory board were spread about for bear effect. They were founded on the announcement that the date of meeting in this city has been changed from January 5 to January 8. According to the best of authority this has no further significance than a desire to accommodate two delegates who could not attend at an earlier date.

Sugar was weaker. The idea of a peace conference between opposing factions seems to have been abandoned, at least for the time being. The market was more active than its immediate pre-

The net changes for the day were: Advanced-Chesapeake and Obio 1's preferred 36. Chesapeake and Ohio 2's preferred 36. Lake Erie and Western preferred 1. New York Central 34. Jersey Central 16, Rio Grande Western pre-ferred 116, silver certificates 56, Tenues-

see coal 1. Union Pacific, Denver and Gulf 12. Wheeling and Lake Erie 74. Wheeling and Lake Erie 74. Wheeling and Lake Erie preferred 54. Declined—Atchison 34. A Case Reported at Pales'Ins-The Council's Action-A Locomotive Engine Explodes-Special to the Gazette.

PALESTINE, TEX., Dec. 30 .- An employe of the International and Great Northern railway was brought to the hospital a few days ago from Laredo. and there is a report on the streets today that he has a well developed case of smallpox. Investigation fails to confirm the rumor and all reports of smallpox in this city is idle talk.

The city council to-day met in a called session and appointed Dr. Ed Link as city health officer and designated a place for a pesthouse. The city fathers are ulert un ! will take all necessary measures to protect the city from smallpox. Engine No. 88, pulling the morning train from the West, due here at 7 a. m. to-day, exploded, blowing off the dome. Engineer Henry Sorey and Fireman

Barrett received slight scalds and burns. No other injuries were received and the damage is slight. The explosion occurred five miles west of this city.

Boscham's Pills cures billious and segrous ill A DALLAS BLAZE.

A Livery Stable and a Portion of its Con-

tones Destroyed-Insualtles-Special to the Gazette.

DALLAS, TEX., Dec. 30,-Shortly before 7 o'clock to-night a fire broke out in the livery and feed stables of A. G. McDowel, 922 and 924 Elm street, and a few minutes afterwards a conflagration of great magnitude seemed inevitable. The alarm had scarcely turned in before turid fiames were shooting skyward and bursting out of the front of the building, communicating with the front of the new five-story Oram building on one side and the Parks grocery company on the other. At this juncture water was turned on and the fire driven back from the buildmes adjoining the stables. The stable building is a one-story stone, extending from Elm to Main street, and was the property of W. H. Prather. A large number of fine horses were

boarded here, but by quick action all are thought to have been moved from the building. A large number of fine carriages and

buggles were burned, and the loss on stable and contents will reach \$20,000. Hue Casberry, foreman of the stable, was badly burned about the face and hands and was taken home. Charles Whetis was badly injured about the eyes with broken glass.

The fire originated in some hav and when discovered had made considerable headway. The building was valued at \$5000; insurance not known. McDowell had \$100 in Phoenix, \$1000 in

Royal and \$2000 in the Fire association of Philadelphia. Parks grocery company damaged probably \$1500 by water. The Oram building damaged \$500;

insured. Subscribe for the Week ON 'CHANGE.

Spot Cotton Fractions and Futures From One to Seven Points Higher.

Wheat Opened Higher, Fluctuated Narrowly and Closed Strong-Coffee and Wool Markets Unchanged.

Daily Review

OFFICE OF THE GAZETTE, FORT WORTH, TEX., Dec. 30, 1830. Trade was fairly active to-day in retail departments. While wholesalers are doing a smooth, steady business, there is no rush-it being so near the last day in the month-and for the year-buyers are

holding off until after the first of the new year to place orders, and are only buying to supply immediate needs. Every one anticipatés a big trade after the The general produce markets are bet-

ter supplied to-day than at any time during the holidays, and prices are in con-sequence slightly off on most commodi-The demand is good, however. Wholesale quotations on coffee and a few other leading commodities in the grocery line, also apples, oranges and lemons, show a slight revision.

Among the Mills.

The Boston Commercial Bulletin of last week says six new cotton mills are reported this week, but they will all be small concerns and run on the coarse grades of goods. Makers of cotton and woolen machinery report a very good business, which is a reliable indication of the prosperity of the two great textile industries. The building activity in the woolen industry is confined largely to additions to plants, but a number of new worsted mills are going up, and that industry is seeing a genuine revival. The worsted mills are large buyers of wool at present, and it is evident that they ex-

pect a period of prosperity.

The tight money market continues to have its effect on the shoe manufacturing business, but the idea that prices are likely to be lower has more influence in keeping buyers back. The factories are now running busily on orders received and the stock-taking time is drawing to a close. This has been a prosperous season with the manufacturers despite the advance in their raw material and the difficulty they have experienced in getting jobbers to meet their views. The manufacturing columns of the Bulletin report a long list of new enterprises in the shoe and leather business, some of which are of considerable importance.

Reports from the paper manufacturing sections indicate that both the pulp and paper mills are enjoying a season of unusual prosperity. In Maine there is considerable activity in the way of new building, and several plants are nearing completion, while in New York and Wisconsin like activity rules. In Wisconsin six new paper mills are to be built, and additions are making to plants in New Hampshire, Vermont and Mas-

In the Pittsburg district considerable difficulty is experienced from lack of natural gas, and several fron mills have put in furnaces for coal, but is not probable that the supply of gas will fail, and latest reports say that large quantities have been discovered directly under the

Pork Packing and Provisions.

The Cincinnati Price Current of Saturday last says outside of Chicago there has been a reduction in the aggregate number of hogs handled by packers in the West the past week compared with the preceding week and the total for all points is somewhat reduced. The places from which returns have been received how 510,000 for the week, against 560-000 the preceding week and 440,000 last year. With approximations for all other places, the total packing since November 1 is 3,335,000 hogs, against, 2,810,000 a year ago, an increase of 525,000. The quality of hogs is spoken of more favorably than heretofore as a rule. Prices have further declined, not so much due to excessive supplies as to the effect of monetary stringency upon packers and dealers. A good distribution business in product is being maintained and the exports for the week were liberal although short of corresponding week last year, when the movement was especially large, the decrease being in meats. At Chicago values of product have been moderately reduced, the close showing a decline of 5 cents per 100 pounds on lard, 15 on short rib sides and 17% cents per barrel on pork, compared with a week ago, for January delivery. In various Western localities there are indications of lessening supplies of hogs, although it is quite avident that they are likely to be plentfful for some weeks to come. The prospects for the entire season, from the present indications, do not give much encouragement to an increase in the total winter packing as compared with last year, nor an increase in next summer's supply, although that period is too far in the future to be estimated at this time with any degree of certainty.

THE FORT WORTH MARKET.

Curcaco, Itt. Dec. 21.—At opening of the market there was very strong feeling and an advance when trading started, 97% for May compared with 97.89% of a close of session yestorday. Market was fairly active. The price was kept close around 97% cand closed with sellers at that point.

at that point.

Corn opened up with a jump of the over closing price of day before, and at end of session it had gained the over opening quotations.

Hog products were easy near the start, pork showing the most disposition toward selling lower, but the call sentiment changed completely, and the sarly drooping was changed to one more nearly approaching buoyancy.

Leading futures closed:
